STIPULATION TO CONTINUE CASE  
MANAGEMENT CONFERENCE TO  
MARCH 20, 2007

17 A Case Management Conference has been scheduled for  
18 February 6, 2007 before Chief Judge Walker at which the parties  
19 are to report on the factors each believes caused plaintiff's  
20 accident and the damages she sustained. A couple of issues have  
21 arisen and the parties are still gathering information on  
22 plaintiff's claim of lost income, the condition of the platform  
23 edging tiles at the time of the accident, and the orientation of  
24 the two cars that plaintiff fell between (relevant to the width  
25 of the gap between cars that she fell into). The parties are  
26 not yet ready to submit the report to the court, and have
